To determine your state's treatment of TE in this rescission, compare the "TE as a % of total (2011 Apportionment)" column with the "TE as a % of total (July, 2011 Rescission)" column. If they are comparable, your state treated TE fairly. If the latter is much greater than the former, your state disproportionately targeted TE. If the latter is less than the former (or 0%), your state preserved or did not cut TE in this rescission.

Comparing the analogous RTP columns will yield the state's treatment of RTP.
